

# FAQs for CEUs

## **What is IACET?**

The International Association for Continuing Education and Training (IACET) is a non-profit association dedicated to quality continuing education and training programs. IACET is the only standard-setting organization approved by the American National Standards Institute (ANSI) for continuing education and training. The IACET standard is what learners seek for quality and is the core of thousands of educational programs worldwide.

IACET's mission is to advance the global workforce by providing a standard framework for quality learning and development through accreditation. IACET's history includes the development of the original Continuing Education Unit (CEU) and creation and maintenance of the ANSI/IACET Standard for Continuing Education and Training.

As a result of its Accredited Provider status, Teachstone is authorized to offer IACET CEUs for programs that qualify under the IACET standard.

For more information about IACET, visit <http://www.iacet.org>.

## **What is a CEU?**

The Continuing Education Unit (CEU) was created by IACET as a measurement of continuing education. One (1) IACET CEU is equal to ten (10) contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction.

## **Why did Teachstone choose to become accredited through IACET?**

We chose to work with IACET because it is recognized internationally as a standard of good practice. Under IACET's care, the CEU has evolved from a quantitative measure to a hallmark of quality training and instruction.
